## From Earth and Sky SPECIAL ADDITION

Two weeks after the Jewish settlers in Gaza became refugees, hurricane Katrina, the most devastating storm in history hit the Gulf Coast of America. In the midst of these tragedies there have been many questions and we are happy to report there have been many miracles of God.

Many have asked why? Why did God allow this to happen to us? The real question is why have we, as a nation, ignored our Creator and his plan for us. God is no longer allowed in our schools or businesses or even every day life. We had a city in which sin was their biggest business and we wonder why did that happen to them? My friends, do not ask why.

The good news here is that it is not too late for us to repent and make things right with God. We all need to do this on a personal level, a family level, and as a country. We need to elect Godly leaders in this country. Ones that do not have to have their speeches "bleeped-out" due to foul language. Ones that seek the face of God and not the pleasures of man.

This is another major "wake-up call" that has been prophesied by God's people. (Amos 3:7). We encourage you to read the "wake-up call" prophesy given to brother Oral Roberts last year. You may read it on our web site at [www.WhiteEagleNews.org](http://www.WhiteEagleNews.org).

Please pray. Pray for those that don't know our Lord Jesus. Pray for the people of these areas who have lost loved ones, their jobs, businesses and their homes. Time is short.

### MIRACLES FROM THE GULF COAST:

The following is a report from Kerry Gibson, an Evangelist for the Christian Motorcyclist Association currently serving in the Gulf Coast area coordinating CMA's efforts to assist the police and rescue personnel working in New Orleans:

*I spoke to Ed in New Orleans tonight and things have changed (for the better) somewhat. But first let me tell you just a little of what he told me. He was called and asked to come feed the New Orleans police the day after the flood. He took in 2 other volunteers and on the next day 2 guys from Connecticut walked up and offered to help. He went expecting to feed a couple of hundred and from the first day it grew.*

*They are serving as many as 6000 meals a day.*

*As you can imagine, supplies haven't been easy to get. It's better now but on the third day they ran out of bread and still had several hundred people to feed. Three of them went off and prayed. Ed told me he reminded God that He had fed 5000 people with a few fish and a couple of loafs of bread. Well they needed to feed some people and didn't have any bread. Within a few minutes a police officer walked up and told Ed while checking buildings they had located a cellar close to where they were and it was FULL OF BREAD and dry goods, did Ed want it?*

*On another day they ran out of meat just as they finished feeding everyone. Then a military officer walked up and asked Ed if he could feed the 100 people she was with. He told her to hold on. He went and prayed (he said that was getting easier) and after he prayed he went over to the supply boxes and got to digging around. In a box under some other supplies he found 40 POUNDS OF MEAT.*

*He told me that since they got there they have not had to turn anyone away and there was no way 5 men could feed that many people except by the power of God. I don't have time to tell you all Ed told me but I can tell you this. God is working and showing His power in New Orleans right now!*

Let us continue to pray for Brother Kerry and all of the rescue workers in this area.
